

REMARKS

Applicant has now deleted the superfluous Abstract.

Applicant is enclosing replacement drawings with this response as required by the Examiner.

In response to the rejection of 35 USC 112 Applicant has amended the claims to incorporate the Examiner's suggestions and correcting the antecedent issues cited in paragraphs 2.-6. in the 112 rejection section of the Office Action.

In response to the rejection of Claims 1-3,5,6, 9-12, 14, 21-23 and 28 Applicant has amended those claims to include the recitation calling for magnetic force to hold the carrier in a stable position. The Examiner has indicated that the claims having that recitation would be allowable if rewritten in independent form in the base claim.

Claims 13 and 14 have been canceled as being superfluous.

The objection to claims 4, 7, 8, 13 and 29 is overcome by the amendment to the claims.

No prior art of record or any known to the undersigned utilizes magnetic force to hold the food carrier in a stable manner. By the above amendment to the claims Applicant believes that all of the Examiner's objections and rejection has been overcome; and therefore, the undersigned respectfully requests the Examiner to pass the instant application to issue.

The examiner is encouraged to contact the undersigned should there be any questions.

Respectfully Submitted,
